Outside Air Humidity Radiation Shield

6 or 10 Plate Design, Integral Pipe Mounting Kit

The Series RHRS Radiation Shield protects outside air humidity transmitters from rain and radiated heat. With the curved shape and color of the plates, air flow is able to move across the sensor to keep radiated temperatures from rooftops and surrounding surfaces from affecting humidity readings. For ease of installation, the Series RHRS has integral pipe mounting hardware which can be removed for surface mounting applications. The brackets on the Series RHRS are specifically designed to be installed on the Dwyer Series RHP outside air humidity transmitters with sintered filters. The pipe mounting bracket fits 3/4" to 1-1/2" iron pipe.

Model RHRS, 6 Plate Radiation Shield
Model RHRS-10, 10 Plate Radiation Shield

*Only sintered filter OSA models of Series RHP are compatible with the shield.
