SLACK TUBE® MANOMETERS

The Model 1212 Gas Pressure Kit is supplied with a 1211-16 Slack Tube® Manometer, covering a wide range of pressure readings from 4-0-4 inches up to 60-0-60 inches. It is designed to roll up compactly for easy carrying. These manometers are versatile, low-cost instruments, but are designed to roll up compactly for easy carrying. These manometers cover a wide range of pressure readings from 4-0-4 inches up to 60-0-60 inches. The Model 1212 Gas Pressure Kit in comes supplied with a 1211-16 Slack Tube® Manometer, carrying case, necessary tubing, and connection fittings for checking gas pressures in virtually all gas appliances.

FEATURES/BENEFITS

• Rolls up for easy storage and transport
• Over pressure safety traps to prevent loss of fluid due to over range pressures or surges in pressure

APPLICATIONS

• Filter monitoring
• Duct static pressure for setting damper position

DUAL RANGE FLEX-TUBE® U-INCLINED MANOMETERS

The SERIES 1227 Dual Range Flex-Tube® U-Inclined Manometer is a versatile, low cost manometer that can be used to read high-range pressure on the right leg or as an inclined manometer to read low-range pressure on the bottom leg. It is made of a sturdy, clear plastic and offers direct readings as a U-Tube or an inclined gage. Magnetic clips are attached to the unit to hold it in position on any steel duct surface and instructions are conveniently printed directly on the scale.

FEATURES/BENEFITS

• Reads 0 to 16 in w.c. as a U-tube and -0.20 to 0 to 2.6 in w.c. as an inclined gage
• Clear, shatterproof indicating tube provides overpressure protection
• Black markings on a stark white scale for positive definition

APPLICATIONS

• Fan status
• Filter monitoring

ACCESSORIES - STANDARD

Description
Two plastic carrying plugs with retainers for use when manometer is not in service. Two magnetic clips to hold instrument to metal surface. Flexible red vinyl plastic tubing connectors.
