The SERIES DL2 accurately records pressure and gives instant remote readings. The large, back-lit LCD and 8-button keypad provide convenient access to current data and recorder setup as well as memory and battery levels. The SERIES DL2 can be ordered for absolute or gauge pressure measurements up to 5,000 psi. Using the keypad or software, measurements can be read in psi, in. Hg, mm Hg, atm, Torr, Pa, kPa, or MPa. The large memory capacity allows over 260,000 readings to be stored. The easy to use DL700 software makes creating permanent records, performing data calculations, and graphing of data simple. The DL2 can easily be started and stopped from a PC or delayed to start up to six months in advance. The battery-powered logger can store over 16,000 measurements per channel, and the easy-to-use USB port (interface cable required) allows device to be used in a variety of in-and-out testing with no additional equipment required.

### APPLICATIONS
- Building automation
- Process applications
- Clean room
- Labs
- Operating rooms
- Regulated environments

### FEATURES/BENEFITS
- Efficient data capture tool to review processes are running correctly or to analyze alarm and out-of-spec conditions
- Intuitive keypad interface allows easy set-up
- PC start and stopping allows centralized control of data collection

### SPECIFICATIONS
- **Ranges**: 0 to 30 psia (g), 0 to 100 psia (g), 0 to 300 psia (g), 0 to 500 psia (g), 0 to 1000 psia, and 0 to 5000 psia depending on the model.
- **Memory Size**: 262,143 readings.
- **Accuracy**: 2% FSR, 0.25% at 77°F (25°C) typical.
- **Resolution**: 0.002 psia (30 psi), 0.005 psia (100 psi), 0.02 psi (300 psi), 0.05 psi (500 and 1000 psi), and 0.2 psi (5000 psi) depending on model.
- **Sampling Method**: Stop on memory full or continuous recording.
- **Sampling Rate**: Selectable from 2 s to 12 hrs.
- **Computer Requirements**: Windows® 95, Windows® 98, Windows® 2000, Windows® ME, Windows NT®, or Windows® XP operating system, and one free USB port.
- **Power Requirements**: 6 V alkaline batteries, installed functional, user replaceable.
- **Battery Life**: 1 yr (approx).
- **Interface**: USB port (interface cable required).
- **Housing Material**: Black anodized aluminum case.
- **Enclosure Rating**: IP65.
- **Weight**: 40 oz (1134 g).

### ACCESSORIES
- Software, manual and USB interface cable

SERIES DLP

The SERIES DLP Data Logger can record pressure and temperature. The 1/4" NPT fitting comes standard and allows the logger to be adapted to almost any pressure fitting. The internal temperature sensor provides accurate temperature measurements without the need of a separate temperature recorder, and many of the models provide a choice between measuring pressure in psia or psig. The DLP can easily be started and stopped from a PC or delayed to start up to six months in advance. The battery-powered data logger can store over 16,000 measurements per channel, and the easy-to-use DL700 software makes retrieving data simple.

### FEATURES/BENEFITS
- Efficient data capture tool to review processes are running correctly or to analyze alarm and out-of-spec conditions
- Battery-powered reduces need to hard wire power allowing device to be used in a tool in a variety of in-and-out testing
- PC start and stopping allows centralized control of data collection

### APPLICATIONS
- Building automation
- Process applications
- Clean room
- Labs
- Operating rooms
- Regulated environments

### SPECIFICATIONS
- **Ranges**: 0 to 100 psig, 0 to 1000 psig, and 0 to 5000 psig depending on the model.
