The SERIES SG1 Gages are perfect for applications where resistance to corrosion is necessary. The stainless steel case and ring offer excellent protection from harsh processes. The SG1 gages are an economical choice where ambient corrosion and vibration are a concern. Gages are suitable for all fluids that are compatible with brass and bronze, and are available with bottom or back connections.

The SERIES SG3 Gages have dual psi and bar (x100 kPa) scales with ±2.5% full-scale accuracy. The Series SG3 gages are designed with 304 SS housings and 316 SS wetted parts for excellent chemical compatibility. These gages cover a wide variety of ranges from full vacuum to 300 psi. Units can withstand ambient temperatures up to 140°F (60°C). Bottom or back 1/8˝ NPT connection options available.

SERIES SGY & SGZ

2.5” INDUSTRIAL PRESSURE GAGE
1.5% FS Accuracy, 316 SS or Brass Wetted Parts, Dual PSI/Bar x100 kPa Scales

The SERIES SGY & SGZ Gages have dual psi and bar (x100 kPa) scales with ±1.5% full-scale accuracy. The Series SGZ and SGY gages are designed with 304 SS housings and the SGZ is designed with 316 SS wetted parts for excellent corrosion resistance. These gages employ an easy-open breather plug on top, which allows liquid filled units to be filled. The Series SGY & SGZ gages are designed with 316 SS wetted parts for excellent chemical compatibility. These gages cover a wide variety of ranges from full vacuum to 200 psi. Units can withstand ambient temperatures up to 140°F (60°C). Bottom or back 1/8˝ NPT connection options available.

FEATURES/BENEFITS
- Stainless steel housing and wetted parts to resist ambient corrosion for longer service life in harsh environments
- Higher accuracy gage for value-sensitive applications requiring more precise measurement and where vibration is a concern
- Back or bottom mounting and compact size provides for mounting with dimensional limitations

APPLICATIONS
- Vacuums in pneumatic conveying lines
- Positive pressure in compressed air headers
- Corrosive ambient environments

OPTIONS
Use order code: Description Price
NISTCAL-PG1 NIST traceable calibration certificate $99.00

ACCESSORIES
Model Description Price
A-445D U-bracket mounting kit for 1.5” and 2.5” gage $2.50

USA: California Proposition 65

SERIES SG1 & SG3

1.5” INDUSTRIAL PRESSURE GAGE
2.5% FS Accuracy, 316 SS or Brass Wetted Parts, Dual PSI/Bar x100 kPa Scales

The SERIES SG1 Gages are perfect for applications where resistance to corrosion is necessary. The stainless steel case and ring offer excellent protection from harsh processes. The SG1 gages are an economical choice where ambient corrosion and vibration are a concern. Gages are suitable for all fluids that are compatible with brass and bronze, and are available with bottom or back connections.

The SERIES SG3 Gages have dual psi and bar (x100 kPa) scales with ±2.5% full-scale accuracy. The Series SG3 gages are designed with 304 SS housings and 316 SS wetted parts for excellent chemical compatibility. These gages cover a wide variety of ranges from full vacuum to 300 psi. Units can withstand ambient temperatures up to 140°F (60°C). Bottom or back 1/8˝ NPT connection options available.

FEATURES/BENEFITS
- Stainless steel housing to resist ambient corrosion for longer service life in harsh environments
- Good accuracy gages for value-sensitive applications requiring more precise measurement and where vibration is a concern
- Back or bottom mounting and compact size provides for mounting with dimensional limitations

APPLICATIONS
- Vacuums in pneumatic conveying lines
- Positive pressure in compressed air headers
- Corrosive ambient environments
